3<sup>rd</sup> January 2025

## MESSAGE

I am delighted to convey my warm greetings and congratulations to The Indian Mining & Engineering Journal and Utkal University, for organising **International Conference on Safe & Sustainable Mining Technologies (IConSSMT 2025)** during 8-9<sup>th</sup> January 2025, at **Bhubaneswar, Odisha**. This prestigious event provides a remarkable platform for fostering innovation, collaboration, and knowledge-sharing among experts, researchers, academicians, and industry leaders in the field of mining and sustainable development.

As the mining industry evolves, the emphasis on sustainability, safety, and technological innovation becomes increasingly critical. I am pleased to see this conference addressing key themes such as green mining, waste management, and advancements in mineral processing. These discussions are vital for shaping a future where economic progress and environmental stewardship go hand in hand.

NLC India Limited have the vision become 104 MTPA Mining, 10+ GW Thermal Power generation, and 10+GW Renewable company by 2030. It is pertinent to mention that NLCIL first ever Coal Mining project, 20 MTPA Talabira II\*III OCP, is located at Odisha, and our upcoming projects of 42 MTPA of Mining and 2400 MW Power are also located at the state of Odisha, which is also the part of the theme of this conference "Destination Odisha". We are deeply committed to adopting and promoting sustainable practices in mining and power generation. We believe that conferences like IConSSMT 2025 are instrumental in inspiring collective efforts towards achieving global sustainability goals.

I extend my best wishes for the grand success of this event. May this gathering lead to meaningful insights, innovative strategies, and impactful collaborations that will contribute to the progress of the mining sector and its alignment with sustainable development.

(PRASANNA KUMAR MOTUPALLI)
